STATEMENT OF PURPOSE AND EXPECTATIONS FROM BOARD:

The purpose of this committee is to create a standard by which complaints of violations may be made by the membership following a structured standardized form. Our goal is to create accountability for members and stop accusations made on second hand or hearsay evidence. It is felt that the board and club membership would be much better served by a board able to spend its time on the required duties of the club. A separate investigative committee would be in charge of handling investigations of safety or bylaw violations. The committee has set guidelines and specific timelines for complaints. The board would not be directly involved in the investigations of the committee. The committee may during the course of an investigation require pertinent information from the board, such as copies of minutes, financial reports, etc. It is felt the board establish a chain of command for communication and information requests. Example: President, Vice President, and Secretary: etc, should the committee require information it is felt the request should be made to one officer and that officer make the request to the appropriate board member(s). Example: Say the President is the alleged violator, the Vice President would be asked to request the necessary information from the appropriate board members. Matters of safety violations would involve the board immediately, while procedural and bylaw infractions would require verification before the board is notified. It is our intent to create a consistent and fair method to deal with complaints and violations, keeping the board informed, and allowing the board to concentrate on club business
